SURVEY OF STEAMSHIPS,—

Survey for a Passenger Certificate.

(Ships exceeding 60 tons Net).

3.—(a) Scale of fees for certificate for 12 months:—

Tons (Gross).	Fee.
Under 100	\$ 70
100 and under 200.....	90

400 „ 600.....	135
For every additional 300 or part of 300 { up to 15,000	30
{ above 15,000	20

(b) For a certificate for less than 12 months, one-twelfth of the full fee will be charged for each month of the period of the certificate but no fee is to be less than three-twelfths of the full fee or \$30 whichever is the greater.

(c) For a new ship or a ship coming under survey for a passenger certificate for the first time the full 12 months fee will be charged even though a certificate for 12 months may not be required.

(d) When the duration of the certificate is limited by the Surveyor's declaration, owing to special reasons rendering one or more further surveys necessary within the ensuing 12 months, the total of the fees paid for the certificates covering a period of 12 consecutive months is not to exceed the full fee for a 12 months certificate.

(e) If any machinery is fitted on board a ship while the passenger certificate is in force the fee for surveying such machinery is \$20.

(f) If the passenger accommodation is altered while a passenger certificate is in force the fee for surveying and measuring such alterations is \$20 provided, however, that if the number of passengers is increased by more than 200 this fee is to be increased by \$15 for every additional 200, or part of 200, passengers.

(g) For the examination of the midship section and other structural plans of a new passenger ship, including a full investigation into the water-tight subdivision arrangements, the fee is to be one-fourth of that prescribed in the above scale subject however to a maximum of \$400. If the ship is surveyed during construction this fee will be considered as part of the fee for a 12 months passenger certificate.

(h) When a ship is surveyed during construction as for passenger certificate, and the survey is to be completed except in regard to certain specific details such as life-saving appliances, passenger accommodation, etc., the fee will be the sum of the fees chargeable for the parts and details actually surveyed with the addition thereto of \$15 for the issue of a certificate of survey or certifying letter.

(i) The fee for a passenger certificate is independent of the number of visits that a Surveyor may require to make before granting his declaration, and covers the complete survey of the hull, including the inspection of the bottom, etc., in dry dock; the survey of the boilers and propelling machinery on board the ship; the inspection of the equipments of the ship, including the lights and sound signals and life-saving appliances. In the case of a classed ship, the full fee for a 12 months passenger certificate also covers the survey for a certificate of approval of the loadline if such survey is made at the same time.

(j) The fee for a passenger certificate does not cover any service under the Chinese Passenger Act, 1885, or the Asiatic Emigration Ordinance, 1915; the measurement for tonnage; the certificate of approval of the loadline of an unclassified ship, or the inspection of Crew Spaces.

(k) In the case of a passenger ship, the fee for change of name includes the issue of fresh declarations and passenger certificates showing the new name and any alterations in the ownership and Port of Registry.

(1) The fee for a passenger certificate is apportioned as follows:—

Complete survey of hull	Two-fifths full fee.
Complete survey of boilers, main propelling machinery and auxiliary machinery	Two-fifths full fee.
Complete survey of Equipments	One-fifth full fee.

(c) An emigration licence is only granted to a ship which holds a valid Hong Kong Foreign-going passenger certificate or its accepted equivalent. If the surveys for passenger certificate and emigration licence (or licences) are held simultaneously only one half of the above fee for an ordinary survey is to be charged for the latter in addition to the fee for passenger certificate.

SURVEY OF STEAMSHIPS :—

(b) When a ship, previously measured under Rule II, is remeasured under Rule I, the full fee in Scale A is to be charged without any deduction for measurement under Rule II.

(c) Scale C shows the fee for remeasurement in consequence of alterations on the upper deck, or in the engine room, or under Sections 77 (4), 78 (2), 79 (i), and 80 of the Merchant Shipping Act, 1894, or Section 54 of the Merchant Shipping Act, 1906. The maximum fee in respect of each item is \$50. The fee for measurement under Section 79 (1) (a) (i) includes the inspection of crew spaces if made at the same time as the measurement.

(d) The fee for measurement under Section 81, Merchant Shipping Act, 1894, and in all other cases where, in consequence of alterations, remeasurement of the under deck tonnage is found necessary is that shown in Scale A.

(e) If a trawler or drifter, built and measured for the Admiralty, is transferred to private owners and is being registered under Part I of the Merchant Shipping Act, 1894 and alterations are found to have been made affecting the tonnage, the fee is to be charged in accordance with Scale A. If no alterations have been made, a fee of \$5 only is to be charged for the visit to the ship and the issue of the necessary papers to the Registrar of Shipping at the intended port of registry.

(f) If the owners of a foreign ship apply for the renewal of a certificate of British Tonnage, the principal dimensions are to be re-tried, and, if they are found to agree with the certificate, a fee of \$20 only is to be charged for the issue of the new certificate. If the dimensions do not practically agree with the certificate of tonnage, the ship must be re-measured throughout under Rule I or II, as the case may be, and the appropriate fee charged.

(g) The fee for a copy of the Certificate of British Tonnage is \$5.

(h) When application is made for the issue or amendment of a "Suez Canal" or "Panama Canal" Special Tonnage Certificate, a fee of two-fifths of the full tonnage fee is to be charged for each certificate whether the measurement is made at the same time as the measurement for British registry or not. This fee includes re-measurement of British tonnage (except underdeck) if made at the same time. Certified copies of Suez Canal or Panama Canal certificate will be issued on payment of \$5 for each copy.

(i) If a foreign ship, originally registered as a British ship, is subsequently brought forward for registry, a fee of \$20 only is to be charged if, on comparison, the principal dimensions are found to agree with the original tonnage measurements. If, however, they do not agree and the ship has to be measured throughout, the full fee is to be charged. If the underdeck tonnage is found to agree and other items differ, then, in addition to the \$20 fee for check measurement, further fees are to be charged for these items in accordance with the foregoing.

(j) If a ship is being transferred from British to foreign registry, details of the British tonnage calculation may be supplied for the guidance of the foreign Customs Authorities on payment of a fee of \$5 per sheet subject to a minimum of \$20.

(k) The fee paid in accordance with Scale A covers any number of visits that the Surveyor may find it necessary to make before he is able to complete the measurement for tonnage and grant his certificate to enable a ship to be registered. It also covers the inspection of crew spaces and lights and sound signals, if the Surveyor is able to make these inspections at the same time as the measurement for tonnage but not otherwise. For any further visits necessary for the completion of inspection of crew spaces and lights and sound signals, additional fees are to be charged in accordance with Regulations 9 and 11 respectively.

(l) The fee for the inspection of minor alterations (e.g., of rig, engines, etc.) is \$10.

SURVEY OF STEAMSHIPS,—

(b) A special additional fee of \$50 is also payable for the loadline survey of an unclassified ferro-concrete ship.

(c) The fee for an unclassified ship should be charged for an unclassified wooden sailing or motor ship whether opened out for survey or not.

(d) If the fee has been paid for the survey of an unclassified ship and, for special reasons a partial survey only has been made and a certificate issued for a period not exceeding 12 months, only one-half of the full fee is payable for the completion of the survey for the renewal of the certificate of approval.

(e) When owners or builders submit a design of a new ship and require a provisional assignment of freeboard the fee prescribed above should be paid according to whether the ship is to be classed or unclassified. This will cover the final assignment of freeboard and issue of the certificate of approval.

(f) The fee for the inspection of minor alterations involving an alteration of freeboard of a ship having a valid loadline certificate is two-fifths the full fee.

(g) The fee for a copy of a certificate of approval of loadline is \$5.

(h) When the survey of an unclassified passenger ship for assignment or re-assignment of loadline is made at the same time as the survey for passenger certificate, one-half the full fee for loadline survey is to be charged.

Survey in dry dock for bottom certificate.

8.—(a) For a ship holding any Hong Kong passenger certificate or its accepted equivalent the fee for the survey of the outside of the hull in dry dock is to be \$30 if the ship is 10,000 tons (gross) or under, and \$40 if the ship is above 10,000 tons (gross).

(b) If the ship does not hold Hong Kong passenger certificate or its equivalent the fee for this survey is to be one-fourth of the full fee for survey for a passenger certificate with the addition thereto of \$10 for each propeller shaft drawn for examination.

(c) The fee covers the issue of a dry docking certificate, but for a duplicate copy of the certificate a further fee of \$5 is to be charged.

(d) If this survey is part of the complete survey for a passenger certificate, loadline, etc., no separate fee is to be charged.

Inspection of Crew Spaces.

9.—(a) The fee for each visit of the surveyor to the ship is \$10 but the total fee not to exceed \$40 when more than four separate visits are necessary.

(b) This fee is not to be charged when the inspection of the crew spaces is made at the same time as the measurement for tonnage, or the survey prior to re-registry.

Inspection of Markings.

10.—(a) When application for the inspection is made by the owners or their agent a fee of \$10 is to be charged.

(b) This fee covers any number of visits required by the Surveyor for the inspection of the markings, but does not cover any other service.

(c) No charge is to be made for the inspection of markings on change of name, or change of Port of Registry of a ship; or if the ship is being measured for registry or re-registry and the fee for tonnage measurement has been paid.

Inspection of Lights and Sound Signals.

11.—(a) When application for inspection is made by the owners, or their agent the fee to be charged for each visit of the Surveyor to a ship is \$10, but the total fee is not to exceed \$40 when more than four separate visits are necessary owing to the lights and/or sound signals being found defective or for any other reason.

(b) This fee covers the issue of a copy of the report of the inspection but, for a duplicate copy, a further fee of \$3 is to be charged.

(c) This inspection is covered by the fees paid for survey for passenger certificate; clearance as an emigrant ship; measurement for tonnage under Rule I, or survey for seaworthiness prior to re-registry.

Inspection of Life-Saving Appliances.

12.—(a) For the inspection of life-saving appliances on board a ship on or before the first registry, or re-registry, a fee calculated on the basis of \$20 for each lifeboat is to be charged.

(b) This fee will cover the issue to the owner, master or agent of the ship a report of the inspection of the whole of the life-saving appliances but if a duplicate copy of the report is required an additional fee of \$3 is to be charged.

SURVEY OF STEAMSHIPS.—

(c) For the subsequent inspection at the request of the master or owner, or, where a ship is found to have defective or deficient life-saving appliances, a fee of \$10 per visit, with a maximum of \$40, is to be charged.

(d) For a certificate of inspection of the life-saving appliances on a foreign ship the fee prescribed in paragraph (a) is to be charged.

(e) On application being made for the survey during construction at the boat-builders' works, and certification of lifeboats intended to form part of the life-saving appliances of either a passenger ship or a cargo ship the following fees are to be charged:—

	Per boat.
Lifeboats 20 ft. in length and under...	\$ 10
Lifeboats over 20 ft. in length. ...	15
Motor lifeboats ...	30

For the survey of a lifeboat undergoing heavy repairs involving re-certification the same fee is to be charged.

These fees cover the issue to the applicant of a report of inspection of the boats only and, in the case of a passenger ship, are in addition to the fee for survey for a passenger certificate. If the boats are supplied to a cargo ship and a subsequent inspection of the whole of the life-saving appliances is made under paragraph (a) only the balance of the fees under that paragraph is to be charged.

(f) On application being made for survey during construction at the makers works, and certification, of a buoyant apparatus intended to form part of the life-saving appliances of a passenger ship a fee of \$2 per visit with a minimum fee of \$20 is to be charged.

This fee covers the issue to the applicants of a report of the inspection of the buoyant apparatus only, and is in addition to the usual fee for survey for a passenger certificate.

(g) For the inspection and stamping of life-jackets at the makers works, an inclusive fee of 5 cents for each life-jacket is to be charged, but the minimum fee for the attendance of a Surveyor is \$15, i.e. the fee for the inspection and stamping of 300 life-jackets.

(h) Boats' davits intended for stock purposes may be inspected and the material tested at the makers works provided an application is made and a fee of \$10 is paid for each set of davits to be inspected. If the davits are subsequently supplied to a ship during survey for a passenger certificate the fee paid will be returned to the makers.

(i) For the examination of the design of the life-saving appliance, and the inspection of the first appliance made to that design, the following fees are to be charged:—

A lifeboat or a motor lifeboat ...	\$50
(The appropriate fee in paragraph (e) is to be charged for each subsequent boat built to the approved design)

13.—(a) When, owing to a complaint of the crew of a ship, a survey is made by direction of a Court, the fee is to be in accordance with the following scales:—

(b) When a ship is finally detained, or when it appears that a ship provisionally detained was at the time an unsafe ship, the fee for survey by a Government Surveyor is to be as follows :—

- (i) If the detention is on account of overloading, improper loading, insufficient ventilation of coal cargoes, undermanning, or defective equipments such as charts or chronometers the fee is to be the same as that prescribed in Scale A.
- (ii) If the detention is on account of defective hull or machinery the fee is to be the same as that prescribed in Scale B.

Survey prior to re-registry of a ship whose Registry has been closed on account of wreck, etc.

14.—(a) The fee for the survey and certificate is the same as that prescribed in Regulation 13, Scale B.

(b) In the case of hulk, lighter or sailing ship which does not proceed to sea the fee is \$20.

(c) This fee covers the inspection of crew spaces and lights and sound signals, but not the measurement for tonnage. Although it cannot be claimed that the general economic situation of the Colony of Hong Kong during the year 1932 showed any visible improvement as compared with the previous year, statistics of the Import and Export trade reveal that the situation was not an unsatisfactory one, taking into consideration the heavy contraction in international trade, and, in particular, the Chinese boycott of Japanese products, which seriously affected the trade statistics of the Colony.

The declared value of Imports of Merchandise in 1932 amounted to \$624.0 millions (£41.0 millions), as compared with \$737.7 millions (£38.5 millions), while Exports were valued at \$471.9 millions (£31.0 millions), as against \$541.9 millions (£28.9 millions).

Calculating in terms of Hong Kong currency, Imports of Merchandise declined by 15.4%, and Exports by 12.9%; but Sterling values showed increases of 6.5% and 7.3% respectively, on account of the appreciation in the value of exchange on other than gold standard countries.

In regard to the quantum of trade, it is estimated that there was a decline of from 7.0 to 10%.

Great Britain still further increased its share of the Import trade, accounting for 9.4% in 1930, 10.6% in 1931 and 12.3% in 1932; while the Japanese share fell successively from 12.3% in 1930, to 9.3% in 1931 and 3.4% in 1932. China, French Indo-China, Siam, India and Australia increased their proportions of the total import trade.

The Royal Observatory is situated on a hillock, 100 feet high, near the southern extremity of the Kowloon Peninsula, about 1000 yards from the harbour to the South, 500 yards from the east side of the peninsula and 900 yards from the west side. The surrounding country is flat, except to the North, where a range of hills from 200 to 400 feet high stretches across the peninsula a mile from the Observatory. From 3 to 20 miles farther North the ground is hilly over the greater part of the peninsula with peaks from 2000 to 3000 feet high. Five miles to the eastward of the Observatory, where another small peninsula projects southward, is a range of hills from 700 to 1000 feet high. To the westward of the Observatory, the hills on Lantau Island, 10 miles distant, rise to 3000 feet.
